NMR Spin-Finish Analyzer

PQ001-Fiber

NMR Spin-Finish Analyzer

Quick

30s per test

New

Oil content of polyester staple fiber, moisture regain of viscose fiber nylon, amount of glue

More

Oil content moisture regain glue amount, resin content test

Range

Suitable for more than 16 fiber materials

Accurate

RSD≤3%

Fiber types

Polyester filament	Nylon	Aramid	silk
Spandex	Polyester staple	Viscose fiber	glass fiber
Cord fabric	carbon fiber	Polypropylene	wool
Vynylon

- RSD of the repeatability of fiber oil content (oil content $\geq 1\%$) $\leq 1.000\%$;
- RSD of repeatability of fiber oil content ($0.5\% < \text{oil content} < 1\%$) $\leq 2.000\%$
- RSD of repeatability of fiber oil content ($0.1\% < \text{oil content} \leq 0.5\%$) $\leq 3.000\%$

Niumag

Niumag Analysis Corporation es una empresa de alta tecnología que se especializó en analizadores de imágenes (RMN pequeño y RMN de sobremesa) de bajo campo. La empresa se estableció en el 2003 y se dedica principalmente a la investigación, el desarrollo, la producción, las ventas y la aplicación de productos de RMN en el campo científico. Nuestros equipos son ampliamente utilizados en la industria del petróleo, materiales textiles, alimentos, campo agrícola, farmacia y polímeros, veterinaria, etc...
